

DATACARD® ID WORKS® ENTERPRISE IDENTIFICATION SOFTWARE

*ID Works Enterprise
identification software
is ideal for end-to-end
management of complex
ID programs.*

Sophisticated software for professional ID programs

Datacard® ID Works Enterprise identification software provides powerful, user-friendly tools for card design, secure card production and flexible management of complex, integrated ID programs.

High-end capabilities, modular components

- **Modular platform.** Separate packages for design and production let you distribute tasks effectively and pay only for the features you need at each workstation.
- **Biometrics and smart cards.** The software offers smart card support (proximity plug-in) to simplify smart card personalization management. You can also design multi-application smart card programs with the ID Works Software Developer's Kit.
- **Intuitive design tools.** Enterprise software enables you to design cards, reports and production forms with speed and simplicity. Shape drawing, transparent backgrounds and ghost images help customize cards. The application lets you integrate production forms with ODBC-compliant, multiple-table databases. Enterprise Designer software also allows you to access ID information stored in a directory service via the Lightweight Directory Access Protocol (LDAP).
- **Enhanced operational productivity.** Simple, powerful interfaces make it easy to capture images, enter and retrieve data and print cards and reports.

Standard Features

Flexible card, report and production form design

User-defined card size (CR50, CR80, Custom)

Auto-create production form

Shape drawing support

Font sizing and colors

Multiple field selection, alignment and formatting

Copy card and report designs between projects

Field types

Variable text (with masking); Static text (with word wrap option); Photo (with border, ghost or transparent background option); Date; Bar code (22 types, including PDF417 binary support); Magnetic stripe; Static and variable graphic (with ghost and transparent color options); Non-printable area; List; Composite; Print count; Auto sequence; Signature; Smart card; Binary field; Event button; PDF417 binary bar code support

Image management

In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)

Image and signature storage as BLOBs or files

Multiple images per record

Crop and adjust existing photo

Batch import/export photos and images from production

Production and data management

Data-driven production

Supports multiple-table databases

Supports Software Developer's Kit

Proximity card plug-in

SASI and Lifetouch plug-ins

Auto-create Microsoft® Access 2000 database

Database management

Quick, advanced and stored searches

Retrieve records from "today"

Retrieve records from "this week"

Database support

Oracle® Oracle8i, Oracle9i and Oracle10g®

LDAP-compliant directory services

(such as Microsoft® Active Directory®)

Microsoft Access 2000 and later

Microsoft® SQL Server™ 2000 and 2005

IBM® DB2® Universal Server 7.1 and 8.1

Help features

Online user's guide

Online help

Help desk support

Security features

Wizard for managing user account privileges

USB hardware security key

Application- or activity-level user security

(per computer or system-wide)

Login timeout feature

Restrict project access by user

Secure user audit trail

Enhanced user password security

Expiration of password after user-defined number of days

Compatible with the extensive line of Datacard® card printers

Image capture options

File input

TWAIN capture devices

Video for Windows capture devices

Datacard Tru Signature solution

ID Works Visitor Manager solution

Datacard Capture Plug-in Tool

System Requirements

Operating system

Microsoft Windows 2000, XP (32 or 64 bit), Windows Vista (32 or 64 bit), and Windows 7 (32 or 64 bit) operating systems

Web browser

Internet Explorer v6.0 or later

Memory

512 MB RAM

100 MB hard disk space for application (not including database)

Color

16-bit color (65,536 colors)

(Cameras may require higher color)

Resolution

800 x 600 screen resolution (1024 x 768 recommended)

Peripherals

CD-ROM drive

Available USB port
